

I urge you not to interfere with SM Satellite Radio from broadcasting its excellent traffic and weather service. I cannot understand why the FCC or anyone else would want to interfere with a service of this kind. We pay for this excellent service and wish it to continue. We cannot get a comparable service elsewhere.

PLEASE reject the NAB;s petition 04-160 snf duppott XM Radio's ability to provide the programming that I desire and deserve.

Thank you for your kind attention.

Sincerely,

Floyd A. Stern

Osteen, FL
